EDUCATION

Vundavilli Satyanarayana Murthy [A]   Andra Pradesh, India
Master of Computer Application:- Pursuing   **June 2023 - July 2025**
Vundavilli Satyanarayana Murthy [A]   Andra Pradesh, India
Bachelor of Science in Data Science :GPA: 8.06   **June 2020 - August 2023**

SKILLS SUMMARY

- **Languages:** Python, SQL, HTML
- **Style Sheet Languages:** CSS
- **Frameworks/Libraries:** ReactJS, Bootstrap
- **Tools:** MySQL,
- **Platforms:** PyCharm, Visual Studio Code
- **Soft Skills:** Quick learner, Teamwork, Communication Skills

---

WORK EXPERIENCE

Internship Experience (Forage) | **March 2025- August 2025**

- Completed multiple virtual job simulations with Skyscanner, Walmart USA, Lloyds Banking Group, and Datacom, gaining hands-on experience in frontend and fullstack development.
- Learned to build responsive web applications, improve UI/UX, work with ReactJS, HTML, CSS, JavaScript and MySQL and follow industry-standard coding and collaboration practices.collaborated with 3+ cross-functional teams to gather requirements, define project scopes, and ensure alignment with business objectives, fostering effective teamwork and project success.
- Strengthened problem-solving, debugging, version control, and project presentation skills in real-world simulated environments.

PROJECTS

Online Mortgage Calculator | **April 2025 - May2025**

- Built an interactive mortgage calculator for users to estimate loan payments.
- Implemented dynamic input validation and responsive design for web and mobile.
- Enhanced user experience with clean UI and interactive calculations.
- https://vaddi-calculator-silk.vercel.app/

Restaurant Website | **May 2025 - June 2025**

- Designed a responsive restaurant website with menu, pricing, and contact sections.
- Applied CSS styling and Bootstrap components for modern UI/UX
- Enhanced site interactivity with JavaScript for smooth navigation and animations.
- https**://**first-project-delta-two.vercel.app/

CampusConnect | **July 2025 - August 2025**

- Developed a student portal with login, course management, and feedback functionality.
- Implemented responsive UI using ReactJS and styled components.
- Connected frontend to backend APIs for dynamic data handling.

To-Do List App | **August 2025**

- Created a task management application with add, delete, and update functionalities.
- Implemented React state management to dynamically update the task list.
- Designed a simple and intuitive interface for efficient task tracking.
- https://todo-list-35.vercel.app/

CERTIFICATES

Advanced Software Engineering [Walmart USA]   **August 2025**

- Designed an Entity Relationship Diagram (ERD) to build a new database meeting the business requirements of Walmart's Pet Department.
- Strengthened skills in Software Engineering, Database Design, Problem-Solving, and System Analysis...

Software Development Job Simulation [Datacom]   **July 2025**

- Throughout July 2025, I worked on practical tasks including software review and identifying root causes to fix bugs.
- This experience boosted my coding skills and prepared me for real-world software challenges.

Front-End Software Engineering Job Simulation [Skyscanner]   **July 2025**

- This virtual internship experience allowed me to work on real-world tasks like:.
  - Following industry practices in front-end development.

- - Improving UI/UX and React component logic.
  - Strengthening my practical skills in a simulated job environment

Banking Group's Technology Engineering [Lloyds]   **July 2025**

- Developed and tested a mortgage calculator, utilising HTML, CSS, and JavaScript, and deployed the tool using Azure enhancing technical skills inwe,b development and cloud computing..
- Maintaining a structured project workflow, which improved code management efficiency by 30%.
